- Brought positivity to the work environment to ensure the whole team was in the best mood possible to meet company goals

EDUCATION

2017

Web Development Immersive:

General Assembly Downtown Los Angeles - Los Angeles, CA

General Assembly's WDI is the launchpad to my career in programming. In total I dedicated 700+ hours of study and projects both in-class and after hours. During the course we completed four projects including one group project, in one-week sprints.
