Summary

Full-Stack Web Developer specializing in HTML5, CSS3, Ruby on Rails, MongoDB, Node.JS, Express, JavaScript, and JavaScript frameworks like ReactJS, AngularJS, and jQuery. In addition to Web Development I run and maintain a successful photography and graphic design entrepreneurship. Familiar with Adobe Creative Suites to a second nature. Currently restructuring multiple eCommerce shops while also maintaining a colleagues Shopify boutique.

Technical Skills

JavaScript	Mongoose/MongoDB	Ruby on Rails	Angular
Node.JS	Materialize	BootStrap	HTML5
React	Express	Photoshop	Webpack

Projects

Kardashian Slot Machine

The Kardashian Slot Machine is exactly what it sounds like - a Kardashian themed slot machine. This app was developed using HTML5, CSS3, JavaScript, and jQuery.

Dog Whisperer

Dog Whisperer is a pet adoption app, that allows people and pounds to post their dog to a database. Similar to Tinder, you can go through and favorite a certain dog, and pick them up from the specified pound.This app was developed using Ruby on Rails, HTML5, and CSS3.

Where The Party App

By accessing the excellent Yelp! Fusion API our app enables users to search for nightlife options available near them. Bars & Restaurants can then be added by users to an itinerary which can then be shared with friends. This app was developed using Javascript, Node.js, Express, and MongoDB.

Vetala

Vetala is an eCommerce store built with ReactJS, MongoDB, Node, and Express. It is like any basic eCommerce store, that is actually being used for a colleagues' shop. I will be adding a Shopify checkout API later in development.

Experience

Photographer, Creative Director & Graphic Designer - Devin Fox Photography - Los Angeles
2015-2018
Owner/Designer
Had the pleasure of working with various companies such as American Apparel, Sparkl Fairy Couture, ShopBGlittz, as well as many signed music artists.
